

Mobile Deposit Capture

Educational Tips

- Before logging into the Touchbanking app, close all other apps running in the background on your mobile phone.
- When prompted for the amount, carefully enter the check amount to ensure it matches the amount written on your check.
- Flatten crumpled or folded checks before taking your photos.
- Keep the check within the view finder on the camera screen when capturing your photos. Try not to get too much of the areas surrounding the check.
- Take the photos of your check in a well-lit area.
- Place the check on solid dark background before taking the photo of it.
- Keep your phone flat and steady above the check when taking your photos.
- Hold the camera as square to the check as possible to reduce corner to corner skew.
- Make sure that the entire check image is visible and in focus before submitting your deposit.
- Make sure that you can see all four corners of your check and the MICR line across the bottom of the check in the view finder on your camera.
